Declaration on the Conflict Minerals Rule

Securities and Exchange Commission (SEC), Section 1502
Of the Dodd-Frank Act of 2010, Finalized August 22, 2012

Superior Products, LLC does not use any component suppliers or vendors of raw materials whose products contain any of the four conflict materials (tin, tantalum, tungsten, or gold) originating from the Democratic Republic of the Congo (DRC) or surrounding countries.

Our bar stock vendors use only recycled materials which may contain tin. We have assurance from our brazing material suppliers that tin in their product's raw materials does not originate from the DRC or surrounding countries. They are doing their "due diligence" to have their suppliers validated as compliant with the Conflict-Free Smelter (CFS) Program, with on-site audits and the Electronic Industry Citizenship Coalition (EICC) Template completed and periodically reviewed and updated as required.
